The people

Not now

By the water

From my room

You and I

Will you be good?

He called me.

Then we will go.

What did they say?

An angry cat

No way

Write your name.

One or two

That dog is big.

More than the other

Two of us

How many words?

The first word

This is a good day.

I like him.

Sit down.

Out of the water

But not me

We were here.

Could you go?

He has it.

Like to write.

If we were older

Into the water

It's no use.

Look for some people.

With his mom

So there you are

As big as the first

A long time

When will we go?

Have you seen it?

From here to there

One more time

More people

All day long

Go down.

It's about time.

Did you like it?

Up in the air

When did they go?

Which way?

She said to go.

Each of us

How long are they?

What are these?

Come and get it.

There was an old man.

Part of the time

It may fall down.

Can you see?

See the water

Now and then

But not for me

Go find her.

Write it down.

At your house

Who will make it?

It's been a long time.

What will they do?

Give them to me.

We had their dog.

Now is the time.

When would you go?

May I go first?

A number of people

This is my cat.

Get on the bus.

Did you see it?

How did they get it?

Number two

Look up.

All or some

A long way to go

For some of your people

The other people
